REPORT

on

BinaryHacks 3.0

Introduction

Binary Club is a technical society of the RKGIT which promotes coding environments in college. The main aim of the society is to make students aware about upcoming technologies. The society conducts Workshops, hackathons and events in college.

About BinaryHacks 3.0

On 24th and 25th Feb 2025, the Department of Computer Science & Engineering, RKGIT, proudly hosted BinaryHacks 3.0 — a dynamic 36-hour hackathon that stood as a beacon of creativity, coding excellence, and student-driven innovation. Organized by the Binary Club, this flagship event of the year drew enthusiastic participation from budding technocrats across various domains.

BinaryHacks 3.0 – 36-Hour Hackathon

The event officially commenced on Day 1, 24th Feb 2025, with high energy and anticipation as over 200+ students, forming 45 teams, geared up for the intense 36-hour challenge. The participants dived straight into brainstorming and development sessions, working on innovative tech solutions ranging from AI-driven apps to smart automation tools.

A custom-built web platform, developed by the Binary Club, managed every aspect of the hackathon — from live bidding and question delivery to score tracking — providing a seamless, interactive, and transparent experience with real-time rankings.

Dr. Amit Singhal (HoD, CSE) interacted with the students during the event, personally visiting teams and observing the live bidding and problem-solving sessions. He appreciated the enthusiastic participation and applauded the Binary Club's initiative and flawless execution.

Day 2 (25th Feb 2025) began with a spiritual start through a graceful Saraswati Vandana and lamp-lighting ceremony, setting a calm and focused atmosphere for the concluding day of the hackathon. We were honored by the presence of Mrs. Saumya Singh, who delivered an inspiring address that motivated all participants. Additionally, Mr. Arthav (Former President of Binary Club) and Ms. Sejal (Former Vice President) also graced the occasion with their presence, offering their continued support and appreciation for the club's ongoing efforts.

During the closing ceremony, Binary Codes 3.0 winners were felicitated with certificates and medals, presented by Mrs. Saumya Singh, Dr. Amit Singhal, and Mr. Vineet Srivastava (Faculty Coordinator, Binary Club). Their presence added prestige to the ceremony and was a proud moment for all the achievers.

The culmination of BinaryHacks 3.0 saw participants presenting their projects to a panel of judges, with the best-performing teams being awarded trophies, medals, and certificates. The awards recognized not just technical competence but also creativity, teamwork, and real-world application.

The event concluded with a heartfelt vote of thanks by Mr. Kartik, President of the Binary Club, who extended his gratitude to all guests, faculty, mentors, alumni, and participants for contributing to the success of the event.
